

NILABH ANAND

PROFESSIONAL SUMMARY

A full stack developer with 2+ years of experience building, designing, and shipping scalable FinTech web and native applications. Demonstrating proficiency in ReactJS, Typescript, NodeJs, and MongoDB.

WORK HISTORY

Intermediate Full Stack Developer, 09/2021 - Current

Bitaccess Inc, Remote

- Worked on frontend and backend of company's core product - Bitcoin ATM which generates \$1 million in transactional volume daily.
- Improved UI/UX design of the Bitcoin ATM kiosk software resulting in the increase of average transaction size by \$180/transaction.
- Improved back-end inefficiencies by transitioning from REST to GraphQL APIs - resulting in 18% decrease in calls to database.
- Top contributors on rewrite and redesign of Bitcoin ATM fleet management dashboard product.
- Enhanced development team's visibility of customer behaviour through customer and client feedback presentations.

Junior Full Stack Developer, 09/2020 - 09/2021

Elia Payments, Remote

- Led a team of 3 intern software engineers, managing schedules & meetings, leading sprint plannings, and conducting performance reviews.
- Conceptualized, road-mapped, and developed subscription management solution (recurring payments) across all 3 of company's core products (SaaS platform, User Wallet, Admin Panel).
- Enhanced client integration experience by creating a customizable automated low-code payment integration - reducing integration time down to ~20 minutes.
- Designed and implemented batch payouts functionality that allowed integrated clients to release payouts automatically to thousands of users simultaneously.

Junior Full Stack Developer, 05/2020 - 09/2020

AxSource, Toronto

- Responsible for API end-point design & ERP software integration with client enterprises.
- Outlined project scope, communicated updates to stakeholders, and released content in an iterative manner.
- Increased product reliability by performing UAT over 15 difference user scenarios, resulting in bug fixes and holistic understanding of user issues.
